DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see pages 7-9, filed June 26, 2006, with respect to the rejections of claims 1-20 have been fully considered and are persuasive. The rejections of claims 1-20 have been withdrawn.

Allowable Subject Matter

2. Claims 1-20 are allowed. The following is an examiner's statement of reasons for allowance. Independent claim 1 is allowed because the prior art of record fails to teach or suggest an optical transmission and receiver module comprising: a light emitting device for emitting light having a first wavelength which is to be incident on an optical transmission medium; a light receiving device for receiving light having a second wavelength different from the first wavelength; an optical path routing element for converging the optical path of light having the first wavelength and the optical path of light having the second wavelength on the optical transmission medium side and for separating the optical path of light having the first wavelength on the side of said at least one light emitting device and the optical path of light having the second wavelength on the side of said at least one light receiving device in the directions of said at least one light emitting device and said at least one light receiving device, respectively; and a lens transparent, to both wavelengths, between said optical transmission medium and said optical path routing element; a pole for supporting the optical path routing element

dispersed between the light emitting device and the light receiving device; in combination with the other recited limitations in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
